

Solar photovoltaics

CELL-PV

Solar cell characterisation

Completed

Compare photovoltaic cells under different laboratory conditions.

The approach combines modelling, test preparation and measurement analysis. Results from the different configurations will be compared using project-specific indicators to document operating limits and opportunities for improvement.

Acronym

CELL-PV

Launch year

2026

Duration

24 months

Total budget

3 MMAD

Hosting platform

Photovoltaic testing platform

Contact

Project coordination — contact@iresen.ma

Consortium

Academic research

Engineering and testing

Technology partner

Scientific objectives

- Characterise photovoltaic materials and components.
- Measure electrical performance under different test conditions.
- Identify degradation factors and opportunities for improvement.
