Solar photovoltaics

FACADE-PV

Building-integrated photovoltaics

Completed

Simulate facade-integrated module configurations.

The approach combines modelling, test preparation and measurement analysis. Results from the different configurations will be compared using project-specific indicators to document operating limits and opportunities for improvement.

Acronym
FACADE-PV

Launch year
2025

Duration
36 months

Total budget
4 MMAD

Hosting platform

Scientific objectives

- Characterise photovoltaic materials and components.
- Measure electrical performance under different test conditions.
- Identify degradation factors and opportunities for improvement.
